State

Heritage Listing

National Trust

Statement of Significance

Last updated on - June 11, 2004

Tree which occurs in a unique location or context and so provides a contribution to the historic garden or park;
Rare or Localised;

Outstanding Size

Located in the shrubbery around the ornamental lake. A very large and attractive example of a species uncommon in cultivation in Victoria. With prolific flowers, it provides a focus to the mixed tree/shrub planting around the lake. Footscray Park is one of the largest and most intact examples of an Edwardian public garden in Melbourne. Major planting occurred in the late 1920s and early 1930s.

Measurements: 31/01/1991

Spread (m): 7.5

Girth (m): multistemmed

Height (m): 7.9

Estimated Age (yrs): 60

Condition: Good

Access: Unrestricted
