Statement of Significance

Last updated on - June 16, 2008

Historic garden or park

Two fine specimens similar to the outstanding specimen at Werribee Park although the foliage does not grow to ground level. The narrow upright forms are also evident in Eastern Park. Both trees have well-shaped crowns with a broad base tapering to a point.. The tree near the residence has lost a portion of its crown on the north side.

Located north-west of Director's Residence.
