Statement of Significance

Last updated on - January 8, 2008

Historic garden or park
Rare or localised

An example of tree rare in cultivation in Victoria. The only other known occurrence of the species is a mature, larger tree at Wombat Park. The tree is a valuable addition to the Eastern Park Pinetum. It has upright habit, narrow crown and appears slightly stressed.

07/04/2004. Very stressed, has dead wood, construction work around has put tree in jeopardy, tree leans to north.

16/02/2011: Recent rains have seen the tree put on new leaves, needles and cones
It is located inside Botanic Gardens Administration Compound 50m East of office block

Measurements: 02/09/1989

Spread (m): 2.8
