National Trust

Statement of Significance

Last updated on - July 14, 2004

Contribution to the landscape

An isolated occurrence of Silver Banksia growing on a railway reserve in conjunction with *Allocasuarina Verticillata*. The area also contains remnant herbaceous plants. Trees have been cleared from surrounding land and improved pastures developed. There is no regeneration evident amongst the stand. The trees are generally in excellent condition and are the only group examples remaining of the original flora

The stand is located on the west side Illabarook-Moonlight Road.1.5 km from Cape Clear-Rokewood Road,.

Measurements: 03/1984
