Statement of Significance

Last updated on - July 23, 2008

Contribution to landscape
Outstanding size
Outstanding example of species

A very large and well-formed specimen with excellent structure which has grown larger than normal. This species is uncommon in cultivation in Victoria occurring around Buchan and the dry rocky foothills of East Gippsland, NSW and Queensland. Some dieback evident. Two smaller specimens occur in the Colac Botanic Gardens.
November 2007 - removed
