T11972 Eucalyptus denticulata

Location

Whitelaw Creek and Upper Thomson Valley Road, BAW BAW VIC 3833 - Property No T11972

Municipality

BAW BAW SHIRE

Level of significance

State

Heritage Listing

National Trust

Statement of Significance

Last updated on - July 1, 2004

Particularly old
Outstanding size

A large veteran tree which survived the 1939 and possibly earlier fires. The tree was much taller but lost its upper crown probably in 1939. The uppermost part of the tree is now a section of dead bole and its present crown has developed entirely from epicormic growth. *E. denticulata* is a new species described in 1991, separated from *E. nitens* mainly by its denticulated adult leaf margins, less persistent juvenile foliar stage and lack of fluorescence (under UV) polyphenol in the leaves.

Measurements: 03/1993
Spread (m): 22

Girth (m): 14.45
Height (m): 54
Estimated Age (yrs): 300
Condition: Fair

Access: Unrestricted
Classified: 13/05/1993

Other Names Shining Gum,

Hermes Number 71473

Property Number
