
Sequoia giganteum

Sequoia giganteum

Sequoia giganteum

Location

Brown Street, JAMIESON VIC 3723 - Property No T12023

Municipality

MANSFIELD SHIRE

Level of significance

Regional

Heritage Listing

National Trust

Statement of Significance

Last updated on - July 15, 2008

Contribution to landscape
Particularly old
Outstanding size

These four trees are believed to have been planted in the late 1860s through to the early 1870s. The best specimen is the measured tree and the other trees, whilst still making a contribution to the landscape, are poorer examples. Whilst we have 12 other entries of this species on our Register, it does seem that the trunk circumference of the tree appears to be the largest next to those at the Ballarat Botanic Gardens and Glen Harrow, Belgrave.

Measurements: 08/03/2000

Spread (m): 12.8
Girth (m): 7.5
Height (m): 38.5
Estimated Age (yrs): 130
Condition: Good

Access: Restricted
Classified: 10/05/2000

File Note 07 /11/2011: Two diseased trees removed

Other Names Sierra Redwood,

Hermes Number 71524
