Statement of Significance

Last updated on - September 22, 2005

Remnant native vegetation
Particularly old
Outstanding size
Aesthetic significance
Outstanding example of the species

This is an outstanding example of the species in terms of its height, canopy spread and diameter. Its diameter is larger than any other tree of this species recorded. It is remnant vegetation on a private property that was presumably cleared for arable farm land. Other remnant trees exist on this and neighbouring properties, however none are the size of this tree. It probably predates European settlement.
