Statement of Significance

Last updated on - February 12, 2007

Contribution to historic garden
Outstanding size
Outstanding aesthetic significance.
Outstanding example of the species.

Located on the Princes Lawn Bed, this tree makes a significant contribution to the Royal Botanic Garden's landscape. It is exceptional for its straight trunk, height and aesthetic appearance. It is an outstanding example of this species and the tallest one known. There are two Water Gums located in the Princes Lawn bed and there are a further 22 species throughout the Royal Botanic Gardens.
