State

Heritage Listing

National Trust

Statement of Significance

Last updated on - June 16, 2008

Contribution to landscape
Outstanding size
Historical value
Outstanding example of species

These two *Populus nigra* var. *italica* were planted as part of a war memorial soon after World War II. They are planted in a prominent location in the town and have an historical connection with the early development of Mt Beauty as a community.

Mt Beauty was a "company" town built by the Victoria State Electricity Commission for its employees who developed and managed the Kiewa and Bogong hydroelectricity power stations
