## Statement of Significance

Last updated on - January 7, 2010

REVISED STATEMENT OF SIGNIFICANCE, CONTEXT, 2010

### What is significant?

The orchard cool store and the surrounding site to the title boundaries.

### How is it significant?

The orchard cool store is historically, technically and aesthetically significant to the Shire of Nillumbik.

### Why is it significant?

The orchard cool store is historically significant because, from 1890 through to the early decades of the 20th century, fruit growing was a significant industry in Diamond Creek. In the absence of refrigeration, cool stores were a means by which fruit could be kept from deteriorating. The cool store is a reminder of this important industry and an example of a technical innovation that enabled local farmers to adapt to conditions in the region; it is one of only a few such structures left in the Shire (also see HO143 and HO212) (Criteria A, B & F). The cool store is technically and aesthetically significant because it features an unusual construction technique and has been dug in to the hillside and attractively clad with log walls and a thatched roof (Criteria F & E).

### BUTLER STUDY, 2001

The Orchard Cool Store is of regional significance

- for its role in and association with the fruit-growing industry at Diamond Creek in the early twentieth century as a surviving example-of a rare construction method within the State
