History

Heritage Inventory History of Site: The westernmost jetty is shown on the original parish plan and was therefore probably built before 1852. All four jetties are marked on the 1864 map and appear to have changed little during the last 120 years. The jetties may have been built to facilitate the shipping of stone quarried nearby.

This place/object may be included in the Victorian Heritage Register pursuant to the Heritage Act 2017. Check the Victorian Heritage Database, selecting 'Heritage Victoria' as the place source.
