Municipality

HEPBURN SHIRE

Level of significance

Heritage Inventory Site

Heritage Inventory (HI) Number

H7723-0682

Heritage Listing

Victorian Heritage Inventory

Hermes Number 8284

Property Number

History

Heritage Inventory History of Site: Deep Creek and its immediate vicinity experienced shallow alluvial mining, deep lead mining (mainly tunnelling under the basalt escarpment), and also quartz mining. Alluvial mining along the creek was being carried from the mid 1850s. The Deep Creek also supplied water for two races. Both were constructed in 1865 and went to Yandoit. The main period for sluicing in the Daylesford district was late 1850s to 1880s.

This place/object may be included in the Victorian Heritage Register pursuant to the Heritage Act 2017. Check the Victorian Heritage Database, selecting 'Heritage Victoria' as the place source.
