VHR history

On 2 February 1857 the schooner Coila bound from Sydney to Melbourne and Geelong, was driven ashore on the East Spit, Corner Inlet VIC near where the steamer Clonmel had been lost in 1840. Her cargo of ale, porter sugar and tea was thrown overboard but she remained imbedded about six feet in the sand. The vessel brought 50 pounds when auctioned several weeks later and the cargo released 62 pounds.
