**VHR history**

Shark boat hit reef at 4.50 am, while going out to retrieve its nets. Vessel was taking water so Bolleman decided to beach on Sorrento side of Corsair Rock. Crew boarded dinghy and rowed to a rescue vessel from Queenscliff pilot station. Skipper knew reef was there, but believed there should be a light on it. 12 metre vessel valued at \$25,000, not insured. One of very first whale boats built by Locke; possibly first shark boat to operate at Port Fairy. Built for Olsen family.
