## VHR history

The site consists of a number of timbers with frames and ceiling planking attached. Some glass and chain has been located on the site. The site appears to be well broken up. The site of a wooden vessel was reported to the M.A.U. by Peter Taylor sometime in 1986-87 but the Unit has no record of this. Mr Taylor re-reported the site in November 1990. At the present time (Nov 1990) the site is under sand.
